Source: This information was extracted on 21/12/2010 from the Creditor Reporting System (CRS) database maintained by the Organization for Economic Co-operation and Development (OECD), Statistics Department (<http://stats.oecd.org/Index.aspx>).

Definitions: CRS financial data presented here are commitments. A commitment is a firm written obligation by a government or official agency, backed by the appropriation or availability of the necessary funds, to provide resources of a specified amount under specified financial terms and conditions and for specified purposes for development purposes. Yearly commitments are presented as three-year moving averages in order to smooth trends, and in constant 2008 US\$ to ensure comparability over years. ODA for health is presented in US\$ per capita per year and according to allocation (i.e. policy purpose). Policy purposes used here are based on the original CRS statistical purpose codes, but have been aggregated to reflect, as far as possible, global health development benchmarks (i.e. MDG6; Reproductive Health & Family Planning).

Acronyms: AFRO-WHO African Region; AMRO-WHO Region of the Americas; EMRO-WHO Eastern Mediterranean Region; EURO-WHO European Region; MDG-Millennium Development Goals; SEARO-WHO South-East Asia Region; UN-United Nations; WPRO-WHO Western Pacific Region.
